KEY METRICS

	FOOD	ORDERS	TRAVEL	RENT
20XX	10	1100	\$10,000	\$7,000
20XX	20	200	\$20,000	\$16,000
20XX	30	300	\$30,000	\$25,000
20XX	40	400	\$40,000	\$30,000

EXPENDITURE BY MONTH

SUMMARY

It will provide insightful summaries including total balance and category wise spending.

A white humanoid robot with a metallic, industrial design is shown from the side, reaching out with its right hand to touch a glowing digital interface. The interface is a complex dashboard with various data visualizations, including bar charts, line graphs, a world map with location markers, and a network diagram. The background is a dark, blue-toned environment with light rays and a futuristic aesthetic. The robot's head is tilted slightly, and its hand is positioned as if it is about to interact with one of the elements on the screen.

FUTURE SCOPE AND IMPROVEMNTS

KEY SCOPES --

GRAPHICAL USER INTERFACE

Migrating from the command line to a visual interface using a library like Tkinter or PyQt.

DATA VISUALIZATION

Adding charts and graphs (e.g., using Matplotlib) to visually represent spending trends.

ADVANCED DATABASE

Upgrading from a CSV file to a database like SQLite for better performance and scalability.
